

STRIKE CALLED FOR TEST CASE

General Tie-Up of Chicago Department Stores May Be Result.

WORK OF UNION

Decision to Start Strike at Rothschild's Was Reached by Lot.

STABLEMEN GO OUT

(Special By Scripps-McLae.) Chicago, Ill., Aug. 11.—Stablemen employed by the Rothschilds department store on State street struck this morning. This was done in conformity with an agreement reached on Saturday when the Rothschild store was chosen to be the test place.

All Are Organized Through the strike it has been learned that all the employees of the big stores are organized and belong to unions of the various departments in which they work.

May Lead to Big Strike The action of the stable men may lead to a tie-up of all the big department stores in the city and a general walk out, not only of the stable employees but of the clerks as well.

EIGHTY PEOPLE WILL VISIT DELLS

Merry Excursion Crowd from Here Made the Trip Over the Milwaukee Road.

From this city yesterday eighty excursionists made the trip to the Dells of Wisconsin. The excursion train pulled out at 8:30 o'clock over the Chicago, Milwaukee and St. Paul road and had it not been for the threatening weather, during the early hours of the morning, there would have been a much larger crowd.

When the train pulled into Kilbourne City the threatening weather gave way to sunshine and the balance of the day proved most delightful. Boats in waiting safely conveyed the excursionists up the river and past the most picturesque scenery in the west. At 10:30 o'clock the train pulled into Janesville.

DEPUTY SHERIFF KILLS SELF WITH REVOLVER

Berrien County Official Takes His Life in Presence of His Own Family.

St. Joseph, Mich., Aug. 11.—Frank Swope, one of Berrien county's best known officials and a deputy sheriff, committed suicide by shooting at his home in Baroda, fourteen miles south of here. He was about the house during the morning as usual and had shown no signs of being despondent. About 11 a. m. he walked into the sitting room to join his wife and two children. Without a word of warning he stepped to the center of the room, drew a revolver from his pocket, placed it to his left side and fired. He fell dead at the foot of the prostrated wife. No reason can be assigned for his act except that he has been in ill health.

Convicted Murderer's Courtesy.

At Emporia, Kan., recently a convicted murderer who had been sentenced to five years in the penitentiary, delivered an address of thanks, as follows: "I am entirely satisfied with the verdict and the sentence, and I am confident that not one jury in ten would have been so lenient with me. I desire to sincerely thank the court for its just and courteous manner of conducting this trial, and I hope that the blessing of God will remain with you all."

Appearances Are Deceptive.

When looking at Lord Charles Beresford's strong, vigorous frame it is difficult to realize that he was once a delicate lad and was sent to sea for the sake of his health, says Tit Bits. He tells the story that when, in 1860, he first set foot on board ship and was making his way along the deck of H. M. S. Marlborough to report himself, he overheard a bluejacket whisper to another, "Poor little chap; he ain't long for this world, that's sure." A fortnight later the grave had closed over the seaman, but the "poor little chap" is very much alive still.

A Visitor Recorder.

Every stranger who enters the White House at Washington is counted by an automatic register. The instrument is held in the hand of one of the watchmen stationed at the door, and for every visitor he pushes the button. Congressmen, senators, members of the cabinet and newspaper men are not counted.

The World Has Progressed.

Cast-iron plows were introduced about 120 years ago, and much objected to upon the ground that they poisoned the land.

POOR ROMANIANS ARE IN TROUBLE

Are in America After a Long Voyage, Though Are Not Here Yet.

New York, Aug. 11.—(Special.)—Thirteen thousand miles is a long voyage to take on the Atlantic in order to reach New York from Havre, but that is what Gelse Robitvici and his six children have done and, technically they are not here yet. They are held at the Ellis Island immigrant station, because they have money which they did not have three weeks ago when they landed on the same ship, the Touraine. At that time the family was sent back because of lack of funds. They had come from Roumania, the eldest daughter, 18 years old, to marry her sweetheart, who was nearly broken-hearted because of the postponement.

Get The Money When the family fled by the inspector's desk at the immigrant station here again today, Robitvici fondly exhibited a roll of currency and in the Roumanian dialect said: "There you are, 600 marks." The family was ordered held for investigation before a board of special inquiry to discover how the members became suddenly possessed of \$144. Meantime the fiancé of the eldest daughter has been notified and should it be decided to deport the other members of the family can show his ability to support the young woman.

YEAR'S COMMERCE ENDING IN JULY

The Foreign Commerce Is Larger Than in Any Year Except 1901.

Washington, Aug. 11. (Special.)—An outline of the foreign commerce during the fiscal year ending with July is found in the report of the chief of the bureau of statistics, who says: "The foreign commerce of the United States in the fiscal year 1902 was larger than in any year of its history except 1901. Compared with 1901 there was a reduction of about \$100,000,000 in exports and an increase of about \$80,000,000 in imports. The reduction in exports was chiefly due to the shortage of the corn crop of 1901 and the reduction in the price of cotton, and an unusual home demand for iron and steel manufactures. The increase in imports was chiefly due to larger demands for foreign materials for use in manufacturing."

Shortage in 1901. The shortage of the corn crop of 1901, due to drought, reduced the corn exports in the fiscal year 1902 150,000,000 bushels below those of 1901, and caused a reduction of \$67,000,000 in the value of corn exportations. The export price of cotton averaged about 1 cent per pound below that of the preceding year, and although the exportations exceeded in value those in quantity those of 1901 by about 170,000,000 pounds, the total value of the cotton exported fell nearly \$23,000,000 below that of 1901. In iron and steel the increased demand at home, coupled with abnormal conditions in the foreign market, caused a reduction of about \$19,000,000 in value of our exports of that class of manufactures.

The Importations. "In importations," says the statistician, "there was an increase of \$70,000,000 in material for use in manufacturing, \$20,000,000 in manufactured articles ready for consumption, and \$12,000,000 in articles of voluntary use, luxuries, etc., but a decrease of \$21,000,000 in foodstuffs, importations of raw material for use in manufacturing amounted to \$238,000,000, which was \$58,000,000 in excess of the preceding year, and of articles partly manufactured for use in manufacturing the imports were \$91,000,000, an increase of \$12,000,000. This brings the total importations of manufacturers' materials imported far above that of any preceding year in the history of the United States commerce and industries."

Production of Coal Leads All Minerals. Total of Both Varieties Nearly \$350,000,000 as Against \$30,000,000 for Gold.

Washington, Aug. 11.—The United States geological survey has issued its annual statistical summary of the mineral products of the United States for the calendar year 1901. It shows for the entire country a grand total of \$1,092,224,380 as the value of minerals produced in 1901, as against \$1,064,408,321 in 1900. This comprises \$556,351,096 worth of nonmetallic mineral products; \$524,373,234 metallic products; and \$1,000,000 (estimated) of products, including building sand, glass sand, iron ore used as flux in lead smelting, the ore, nitrate of soda, carbonate of soda, sulphate of soda, and alum clays used by paper manufacturers. Following is the value of important products: Pig iron, \$242,174,000; silver, \$77,126,332; gold, \$90,218,800; copper, \$56,623,266; lead, \$27,280,200; bituminous coal, \$236,201,599; Pennsylvania anthracite, \$112,504,020; natural gas, \$27,067,500; petroleum, \$60,417,335; brick clay, \$13,800,000; cement, \$15,786,789; stone, \$55,615,926.

GREAT EXPENSE OF COAL STRIKE

State Maintains Twelve Hundred Soldiers on the Scene.

MEN ARE ORDERLY

\$100,000 Has Been Expended for the Relief of Families of Strikers.

EXPECT A VICTORY

(Special By Scripps-McLae.) Shenandoah, Pa., Aug. 11.—The expense to the state of maintaining twelve hundred soldiers here continues and there is thus far no practical change in the miners' strike situation. Fourteenth Week. The men entered into the fourteenth week of the suspension of work in a manner, more confident than ever that they will win out in the end. They are orderly and quiet, and while loafing about the streets are not turbulent in the least.

UNION MEETING SUNDAY NIGHT

BAD WEATHER DRIVES WORSHIP-
ERS INSIDE.

SUBJECT, "THE PRODIGAL SON"

Rev. Tippet of Court Street Church
Gives an Interesting Talk, with
This for His Subject.

Delusions which influenced the prodigal son and which find their counterparts in modern life was the general theme of the address which the Rev. J. H. Tippet delivered at the union service Sunday evening. The damp atmosphere drove a good sized audience to shelter in the Court Street Methodist church. The lower floor was filled to its seating capacity, and a number were forced to find accommodations in the gallery. Announcement was made that the service next Sunday will be held in the Court House park, the weather permitting, or in the church which will be announced later. The speaker at the next meeting will be the Rev. J. T. Henderson.

Touches on Common Delusions.
Probably more common delusions and fallacies are touched upon in the parable of the Prodigal Son than any other lesson in the Scriptures. It is also true, when dealing with this topic, that the hearer should do rather more than half of the preaching, for it is useless to attempt to bring out any of the lessons of the passage unless the hearer is in a receptive mood to apply everything to himself.

There is no man so full of delusion as he who has gone from the right to the wrong. The Prodigal eminently illustrated this. He said to himself: "I shall have my own." Almost everyone has said the same thing. You may have done it first when you heard some man who had seen more of the world than you telling in glowing terms of the delicious transgressions which he has committed.

Then as he told the story your mind reverted to the "prejudices" of your mother. You thought of her back in the old home as she looked fondly after you and breathed a prayer that all might be well with her son. But you thought no more of her as pure, and simple and loving. Instead of that you thought of her as prejudiced and blinded by a narrowness resulting from an ignorance of the world. You thought of her prejudice as she handed that book to you which she fondly believed was the best of all books. You thought of her prejudice as she pointed out the necessity of church attendance. You saw in those eyes of hers only shallowness and lack of knowledge and experience of the world where once there was aysmal love.

In your conceit you pitied your mother and said to yourself: "I will have my own. I have been robbed of a part of my heritage in life." Under the influence of these thoughts your imagination began to cover new fields and hitherto unexplored territory. Your fancies became wild horses which swept unbridled over the plain. No man can keep his fancies within his control save through the power of God.

Mind Above Prejudice.
A young man often says that he will toss aside this mass of prejudice and have his own. Praise God, the human mind is too broad for such philosophy. "Only a mother's prejudices," he may say in his foolishness, but that mother's prejudice is the best gift that can be given to a boy. It is that which makes him debate whether or not he shall enter a saloon. O mothers, prejudice your sons against hell and the downfall of sin.

Deluded Freedom.
Another delusion which oppressed the Prodigal Son was that he would obtain freedom by leaving his father's house and going out where he pleased. "Oh liberty," cried a Frenchman, "how many crimes have been committed in thy name." The girl who believes that she can go beyond the bounds of propriety under which she was brought up has dug the pit of her own downfall. The young man who can overcome the prejudices of his mother for the sake of freedom has sunk himself in bondage.

It is only under law that there can be actual liberty. When man transgresses the law he ought to be led to the penitentiary but whether he is or not he at once begins to bind about himself the chains that draw him into an actual slavery that will end him in the prison house of sin. The painter who decides to lay aside for the sake of freedom, the established laws of color, and start out along entirely new lines, will bring about a product that is even worse than the work of an amateur, if that is conceivable. The art produced by a life that is unobscured of established laws is no better than a dabbler. A singer has no freedom in her art until the laws of melody have taken control of her voice and held her where she can not transgress.

A Supreme Blunder.
When the prodigal said: "I shall have happiness," he made the blunder that most closely touched upon his soul. It is a beggarly conception of the world, a narrow view of life, that calls happiness its great end. We need not to be happy but be men. The younger son believed that from his money he would obtain happiness. There are men in Janesville who know the falsity of this theory. They can testify in their anguish, that money is not to be weighed in the bank but in the conscience. Men in this city are wondering why their lives are bringing less to them than when they had less money. It is not a difference in the account book but in the soul. The rich man has wandered from home to that far country where there are swine to be tended, and where those things that satisfy the swine are all that the men can obtain.

It is only a short journey to this far land. Only today, just across the border land, your surroundings are heart-breaking and reproaching. A single step has taken you where years may not reclaim you.

Above all, you are in danger of erring in supposing that it is an easy matter in the end to return and secure complete pardon and forgiveness, to make all as it was before the transgression and the wandering to the far country. It is easy to take it for granted that in the end you can square yourself, but when you face that moment you find that you must end your own life as did Tracy. The moment of final retribution is inevitable. Sin has done its damnable work when you think that it is all right to let go, and trust to the future for repentance. It is true, however, that the Lord is always ready to meet the repentant sinner. And he will always come to meet him when he sees him from afar. There is no Christ like our Christ, the Lord Jesus, who is so pure and lovely and commanding. But he will not compel your return. If you cannot do it of your own free will, you are no man. You must see a man, and determine for yourself that you will return and do what you can to make amends, and when you are yet a long distance off, the Lord will approach with outstretched arms to guide you to your own.

TO HONOR DECEASED MEMBERS

United Workmen and Degree of Honor to Observe a Memorial Day.
Next Sunday, August 17, will be observed as Memorial Day by Olive Branch lodge, No. 36, A. O. U. W., and its auxiliary organization Laurel Lodge No. 2, Degree of Honor. Within the past few years it has become quite the custom for different lodges to observe a special memorial day on which the graves of their deceased members are decorated with flowers. The Modern Workmen of America were the first lodge in this city, outside of the Grand Army of the Republic, to honor the memory of deceased members in this manner, their annual memorial day coming in June.

HOTEL MEN TO MEET IN CONCLAVE

TO TALK CHANGE IN LIVING

Prospect of Introducing the European System Throughout the State.

According to the original plans of the hotel keepers of the Fox River Valley a conference was to have been held at Appleton last Thursday to discuss the adoption of the European system in the hotels of the state. The plan was however changed and it was decided to hold the meeting at some later date and ask the attendance of hotel keepers from all the leading cities of the state.

It is probable that one or more of the local hotel proprietors will be in attendance at this conference, and although their plans have not been absolutely made, circulars have been sent out to the Janesville men as well as to others throughout the state from the Appleton promoters of the European plan asking attendance at the meeting.

Local Men Favor Plan.
But whether the Janesville proprietors are at this meeting or not they are almost universally in favor of a proposed change from the American to the European plan. When spoken to in regard to the change they are almost unanimous in the expression of belief that the change was inevitable, although they doubted the efficacy of a single meeting toward accomplishing the end.

Their statement is that there is too great a waste under the present system and the dining room barely clears expenses, if it does not actually lose. A guest under the present system orders nearly everything on the bill of fare regardless of whether he actually wishes all that he calls for, and there is obviously a great loss under such a plan.

Comparison of Systems.
Proprietor Johnson of the Myers House spoke of a talk which he had a short time ago with Mr. Plankinton of the Plankinton House, Milwaukee. The plan that is followed in that Great City hotel is to have three dining rooms, one on the American plan, one European, and one a lunch room. The first is run with a constant waste of food, which has been ordered and left untouched, while at the second two dining rooms there is practically no waste, and a sufficient profit to make it well worth the proprietor's while to operate the dining hall. At the same time there is but little additional cost to the patron.

No Local Change Soon.
J. F. Sweeney expressed himself as heartily in favor of such change but did not believe that it could be accomplished at any early date. He said that the cost of all dining room supplies is so high at present that there is no profit under the American system. He did not know whether he would be present at the conference, although he had received several letters in regard to the matter.

The plan proposed for the Appleton meeting is to have the fifty or seventy five hotel men present at the meeting endorse a scale of prices which shall then be furnished to all proprietors in the state. In this way rates in the leading hotels in all parts of the state will correspond.

Notice to Contractors.

Bids will be received by the Board of Education for the erection of an addition to the Adams school building, according to plans and specifications now on file in the office of the clerk of the Board of Education. All bids must be accompanied by a certified check for \$200, as a guarantee that the successful bidder will complete the work. The board reserves the right to reject any or all bids. No bids will be received after 5 o'clock p. m. August 16, 1902.

REV HENDERSON TALKS TO PARENTS

TEACH CHILDREN LOVE OF GOD

The Inclement Weather Keeps Many
Persons from Attending
Services.

Inclement weather conspired against large congregations in the local churches yesterday morning for while the storm was not severe it was unpleasant enough to keep all but the most faithful church goers at home.

At the Presbyterian church it had been the Rev. J. T. Henderson's plan to preach to the children, but so few were present that he postponed his sermon to them and in its place gave a brief talk to the adults.

This talk, which was very brief, was preceded by the usual preliminary service including the prayer, Scripture lesson and responsive reading. Leonard Mathews led the song service and also sang an exquisite solo, "A Hymn of Faith" by Metcalf. Mrs. J. F. Sweeney presided at the organ and the offertory number was an inter mezzo by Alfred Holmes.

Talk to Parents.
Rev. Henderson's remarks to his congregation were on the importance to the church of paying much careful attention to its children. It is impossible to overestimate the importance of teaching children the truths of God. If the church is to be a place where young men and women grow up strong it must be a place where the children are encouraged and helped. The reason why many churches are not strong is because mothers lost their grip on their children while they were in the cradle. Henry Ward Beecher once said that the most beautiful sight in the world was a sleeping child in a sanctuary. The child of four years may be as true a worshipper as many an older person.

More Children's Services.
As a rule churches do not have enough services for children and parents are not impressed enough with the importance of having their children attend these services. Few people realize how many young men there are who never darken the doors of a sanctuary. The young men are not in the churches and they are not in the churches of Janesville in a conspicuous way as compared with the surrounding places. The reason lies largely with the older church members. Where is the employer who would not deal severely with a young man who would give a rain storm such as served to keep people from church, as a reason for being absent from work.

Work For Children.
There are not one-third of the children in the Sunday schools that there should be according to the population. The churches are not doing enough in Sunday school effort, and parents are not enough interested. The fault does not lie in a lack of faithful teachers but there is a lack of responsibility somewhere.

Early Training Important.
The speaker said that he would like to preach to the children once a month. When the church gets hold of the children and gets them in the house of God, it is well for the church. It is as true today as it was in Solomon's time that a child trained up in the way he should go will not depart from it in later life. Parents should bring up their children to be in the sanctuary fifty-two Sundays in the year and when they grow up they will continue to be in the house of worship fifty-two Sundays of the year. Parents should teach their children the love of God and show by their own example that they love to be in the house of God.

How Do You Make a Circle?

The intelligence of people may be gauged by asking them to make a circle on paper with a pencil and noting in which direction the hands moved. The good student in a mathematical class draws circles from left to right. The inferiority of the softer sex as well as the male dunces is shown by their drawing from right to left. Asylum patients do the same.—London Family Doctor.

Mayor Jones Seeking Health.

Mayor Jones ("Golden Rule" Jones) of Toledo, has gone into the wilds of Michigan somewhere for an indefinite period of rest, accompanied only by his son Paul. Mr. Jones is in bad health, but refuses to consult a doctor. He has left no address or information as to his movements, except with a confidential official, and is going to make a determined effort to return home in good condition.

SERVICE TO HOT SPRINGS, S. D.

The Great Sanitarium of the North and West
Chicago & Northwestern put in through sleeping car service from Omaha; direct connection with sleeping cars from Chicago to Deadwood. The Black Hills country is rapidly developing not only as a mineral and other resources, but also as a health resort. Hot Springs were never so well patronized as at present. The United States government is establishing a sanitarium there for disabled soldiers of the regular army and development in other ways is quite marked. An invalid, who has been at Hot Springs for several weeks on account of a severe case of inflammatory rheumatism, telegraphed in response to an inquiry as to whether he wanted to go somewhere else:

"I am surprised that you should think or hint at my leaving here for some other place. Weather is perfect, air cannot be duplicated in any other section of the country, and water is a natural restorer. How can I help but keep on improving?"

This new sleeping car service The North-Western Line will be of great advantage to those who desire to make the trip to Hot Springs this summer. It will be maintained throughout the month of August and possibly longer.

GENTRY'S FINE ANIMAL SHOW

AN EXCELLENT EXHIBITION

Ponies, Dogs, Monkeys and Elephants Do All But Talk.

Indisputable cleverness in every act has made Gentry Brothers' dog and pony show an entertainment that can stand solely upon its own merits. On both afternoon and evening, Saturday, performances were given which challenged admiration, and compelled no excuse making on the part of the management. Every trick and maneuver stood out as undeniably worthy of applause, and the work of some of the trained animals was little short of marvellous.

It would be difficult to say which part of the exhibition was the most worthy of praise, for there was no place where the work of animals could be said to drop below a uniform standard. When, after a grand march in which the entire troupe of animal actors, from the monkey fire department to the four baby elephants, each hanging to the tail of the one before him, fifty ponies came marching as their names were called and proceeded to go through a series of intricate revolutions, the audience was delighted. And from that time on a constant chain of features illustrating the height to which animal training can be carried were brought on the stage, each one surpassing the preceding in the novelty and brilliancy of its details.

Perhaps nothing created more amusement than the work of the monkey doctor, as he frantically drove his dog cart to the aid of an ill pony, but the elephants would probably have taken the ribbon for cleverness. When a series of pedestals about the size of ten pins were brought out and one of the ponderous animals proceeded to act the tight rope walker across the tops the crowd doubted the witness of its eyes. An after show and monkey theater was given which fell below the standard of the main exhibition.

Heart Beats

that are too fast or too slow, too strong or too weak, are not the kind that come from a healthy heart. Remember, every heart that pains, flutters, palpitates, skips beats, and every heart that causes fainting spells, shortness of breath or smothering, is weak or diseased, and cannot keep the blood circulating at its normal rate.

"My heart was very weak and kept skipping beats until it missed from one to three beats a minute. Well knowing what the result would be if this trouble was not stopped, I began taking Dr. Miles' Heart Cure, and two bottles brought the heart action to its normal condition."

MICHIGAN SOLON DIES SUDDENLY

HAD BEEN ON THE GOLF LINKS

Is Attacked by Faintness and Sends for Stimulant, Which Gave Temporary Relief, but Later Efforts of Physician Are in Vain.

Boston, Mass., Aug. 11.—United States Senator James McMillan of Detroit, Mich., died at his summer home, Eaglehead, at Manchester-by-the-Sea, at 4 o'clock Sunday morning. The fatal malady was congestion of the lungs.

While playing golf Saturday afternoon the senator noticed the first symptoms of the disease which ended his life so suddenly and which, it is believed, were aggravated by the exertions of the play. He was an enthusiastic golfer and seldom missed an opportunity to indulge in his favorite game. After luncheon he started around the links at the Essex Country club. He was not entered in the tournament as usual, but followed the ball leisurely over the course.

Sends for Stimulant.
In ascending a small but steep hill the senator was attacked by faintness and difficulty in breathing. A messenger was sent to the clubhouse for a stimulant, after taking which he felt much better. The faintness soon passed away, but he did not finish the round of the links and went home late in the afternoon.

By dinner time he had apparently recovered entirely from his indisposition and ate his dinner with the family, appearing in the very best of spirits, joking and laughing over the incidents of the day. The evening, he passed as usual with his family, he being in the best of spirits and not retiring until late.

Doctor Is Summoned.
At midnight he was aroused from sleep by a difficulty of breathing and experienced considerable pain. His symptoms were so alarming that Dr. H. G. Washburn was sent for and arrived at 12:30. The senator's condition was then quite serious, with congestion of one lung and some heart weakness.

The doctor immediately applied heart restoratives, which had the desired effect, and the patient soon was relieved. He was able to lie down and finally sank into peaceful slumber.

Has a Relapse.
At 3 o'clock another attack came on, much more severe than the first. Mr. McMillan experienced the greatest difficulty in breathing and his heart action was rapidly growing weaker. Dr. Washburn applied the most powerful heart stimulants by hypodermic injection, but they did not have the effect they did at first. In fact, they appeared to have no effect whatever.

The congestion, too, had spread to the other lung and the situation was critical. Dr. Morrill of Magnolia was telephoned for, but did not arrive in time to be of service.

End Is Peaceful.
The senator gradually sank, but retained consciousness until about ten minutes before the end.

There were at his bedside at his death his wife, his daughter, Miss Amy McMillan, and his granddaughter, Miss Jarvis.

If the family so desires it is expected a congressional committee from both houses of congress will be appointed to accompany the remains to their last resting place in Detroit. The designations would be made by Senator Frye, president pro tem of the senate, who now is in Maine, and by Speaker Henderson.

The first shot struck her husband in the shoulder, making a serious, though not dangerous wound. The second shot hit Miss Bell.

JUROR JUMPS FROM A WINDOW

Texas Man Becomes Insane and Sustains Fatal Injuries.

Temple, Tex., Aug. 11.—While engaged as a juror in a felony case at Belton and while the jury was striving to reach a verdict, George Justice of Killeen became suddenly insane and before he could be prevented flung himself from a second-story window of the courthouse into the street below, sustaining injuries which will prove fatal.

Would Not Sell His Name.

Lamar H. Holmes of Springfield, Mo., has refused to adopt the name of Frisbie, though for doing so he would have received \$12,000. Louise Frisbie, his aunt, left him that sum, on condition that he make the change, but he refuses to do so. He had a year to consider the matter.

Labor of Making a Doll.

It takes eighty men to make a German doll. Each man makes a small portion of the doll, but it is the same bit all the time and 1,000 dozen dolls can be made in a day in some of the big factories. After the men finish the body portion of the doll the women's work begins. They paint and dress the dolls.

Memorial to Susan B. Anthony.

A bronze medallion of Susan B. Anthony is to be presented to Rochester University and placed in the woman's room, as a memorial of the service done by her in opening the university to women. A tablet similar to the one to be presented to Rochester has been placed in Bryn Mawr.

A FATAL MISTAKE!

Is Often Made By the Wisest of Janesville People.

It's a fatal mistake to neglect backache.

Backache is the first symptom of kidney ills.

Serious complications follow.

Doan's Kidney Pills cure them promptly.

Don't delay until too late.

Until it becomes diabetes—Bright's disease.

Read what a Janesville citizen says:

Mrs. N. J. Casey, of 109 Prairie Ave., says: "Doan's Kidney Pills proved better than any other medicines I took for my kidneys. These organs troubled me off and on for some years. Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples' Drug Co.'s store. I only took them a few days when I felt better. Should there be any recurrence of my trouble I now know what to use."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

Remember the name Doan's and take no substitute.

"The Morning After."

The depressing effect following a night of conviviality is quickly dispelled by the use of Palmo Tablets. They restore tone to the stomach, soothe the nerves, regulate the kidneys, induce natural, refreshing sleep, and make you look and feel years younger. 50 cents. Book Free. Address The S. R. ECZEMA

is due to the retention in the system of Uric Acid or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, from which a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and oftenest attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates the sluggish organs, and all the waste matter is eliminated through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

S. S. S. contains no minerals but is guaranteed purely vegetable. Write us if you need medical advice; this will cost you nothing. Illustrated book on skin diseases sent free.

A REPUBLICAN CLUB.

Wisconsin politicians of the republican faith are talking of forming a republican club in Milwaukee with a membership open to all republicans for the propagation of unity and republican ideas. The plan as thus far formulated would make the club of a social nature as well as of a political. There would be a large club house, commodious in every respect. Here would be headquarters for all republicans who might visit the city. Here they could make this appointments to meet men of their like and clan for private conference. It would mean that to the outside Milwaukee republican he would have a place where he might be at home when he came to Milwaukee. It would mean that he would have a place where he could find congenial companionship and where the affairs of state and political plans for the future of the party could be freely discussed. Such a club could not exist without unifying the whole of the party into one compact form and would do much to straighten out the present tangle that it is now in.

The plan is a good one and should meet the hearty approval of all the politicians throughout the state. Such a club would soon grow in power that it would be an impossibility for the democrats to make any headway against it. In Pennsylvania the Union League club of Philadelphia controls the policies of the republican party not only in Pennsylvania but throughout the United States at large. The Union League of New York is another club that has a national influence on republican politics. Such clubs are powers in their way. Chicago had a club, the Irregulars, sworn to the democratic standard that was a power until Bryanism broke its ranks. At present it is again on the rise. The Marquette Club of Chicago is also a type of this style of club and it influences many voters. Tammany Hall of New York has a wider reputation and a wider influence than any similar club in the country and its power has always been its purity.

The Milwaukee club would not be as extensive a club as these to start with. It would be more modest but its influence would be felt. Wisconsin republicans are in an unique position today. The fight that has been made both on the Governor and Senator Spooner has brought the state into a national reputation. Today Wisconsin is looked at by the whole of the republican world and the result of its election will be most carefully noted.

Aside from the internal squabble that has shattered the once impressive party into two sections, Wisconsin is prominent as being the home of Senator Spooner. This alone to the eastern man's ideas makes the state prominent. To the east Senator Spooner is a Solon whose equal has seldom been seen. He is the present Daniel Webster of the United States senate. To eastern politicians and even to those of other states, his opinion on a national issue is of most importance. Away from home Spooner is appreciated.

The present plan of the proposed club is to make the initial fee \$25, thus giving a working basis to start with. The club would be run as is any first class club and would have all the equipments and appurtenances of the most modern. It would be in the charge of a man whose knowledge of politicians and faces would be a most suitable place to entertain President Roosevelt when he visits Wisconsin this fall.

COMMERCIAL MOVEMENT.

The commercial movement of the great staple commodities produced in the interior of the country are necessarily subject to something of a lull during the mid-summer transition from one crop year to another. There is, nevertheless, in the data collected by the Treasury Bureau of Statistics, on internal commerce up to the end of June, an opportunity for half-year comparisons of commercial

movements, such as those of live stock, grain, provisions and produce. The five western live stock markets of Chicago, Kansas City, Omaha, St. Louis, and St. Joseph, taken as an index of the trade generally, report total receipts of meat-producing stock, including cattle, hogs and sheep, between January 1 and June 30, inclusive, of 14,766,855 head. This was 709,283 head less than for the corresponding period of 1901, and 347,692 head less than for 1900.

Taking the Chicago market as typical, the monthly average weight of cattle has begun to recover from the lower level of 940 pounds, per head in April. In May the average weight rose to 957 pounds, and in June to 961 pounds per head. The average weight of hogs is likewise recovering, but the numerical supply is still nearly a million short of the receipts for the first half of 1901.

A rough gauge of the increase in the consuming demand for meats is found in the trunk line shipments of provisions from Chicago and Chicago points. These shipments go primarily eastward from the centers of production in the interior, and secondarily southward. For the first 26 weeks of this year 652,217 tons of provisions entered into this movement, compared with 672,815 tons last year. The gain of 13.3 per cent. over last year amounted to an average of 3,054 tons per week more than the weekly demand for 1901. The five markets reporting stocks for cut meats had, in round numbers, 245 million pounds of cut meats in stock at the end of June, 1902, against 311 million pounds for the corresponding date in 1901. This is a decrease of 21.2 per cent.

COMMERCE ON THE PACIFIC COAST.

Redwood, pine and fir arrivals at California coast points for the past six months amounted to 41,926,854 feet, compared with 31,530,987 feet during the first half of 1901. Cargo lumber shipments from the state of Washington for six months, as reported by leading mills, were 64,611,336 feet foreign and 197,644,082 feet to domestic points. Orange and lemon shipments from California have decreased 26.5 per cent. from November 1 to July 1 of this fruit year, compared with the corresponding period of last year, the average weekly shipment declining from 640 cars to 470 cars. For June the first month of the delicious fruit season in California, 1,166 cars were sent in 1901, and 680 cars in June, 1902, being a reduction of 41.6 per cent. Flour shipments from Columbia River points for the fiscal year ending June 30 amounted to \$23,848 barrels, of which 637,793 barrels, or 77.4 per cent. went to foreign destinations, and 186,055 barrels to domestic ports. Tacoma sent 518,406 barrels abroad and Seattle 347,867 barrels in approximately the same period.

Coal, Coke, Petroleum and Phosphate.

June coal traffic in the East shows a contraction of anthracite shipments, and an expansion of bituminous and coke shipments. Pennsylvania Railroad shipments east of Pittsburgh and Erie amounted to 30,464 tons of anthracite this June, compared with 365,823 tons in June, 1901, and 342,414 tons in June, 1900. Bituminous shipments in June of this year were 2,272,727 tons, compared with 1,509,940 tons in June, 1901, and 1,428,050 tons in June 1900. Total shipments of coal and coke for corresponding half-year periods were as follows: 18,605,230 tons in 1902, 16,393,636 tons in 1901, and 16,147,222 tons in 1900. Chesapeake & Ohio Railway carried 5,744, 209 tons for 11 months ending with May 1902, compared with 5,014,118 tons in 1901. In the same period the Southern Railway handled 3,139,499 tons of coal originating on its line. At Chicago anthracite receipts by rail and lake for six months were 453,716 tons, compared with 815,277 tons last year. Coke shipments from the Connellsville region averaged 11,241 cars weekly for the first 26 weeks of this year, and 10,600 cars last year. Texas petroleum shipments by water and rail during June amounted to 1,612, 991 barrels of 42 gallons each. Pipe line territory reported 7,761,781 barrels of receipts for the same month. Six months' phosphate shipments, mostly from Southern ports, totaled 527,967 tons, of which 393,168 tons were foreign, and 134,799 tons for domestic destinations. The corresponding total for the last half-year was 415,682 tons.

Even the national government at Washington notes the power of the American newspaper man. His sagacity has been recognized. By a recent order of the secretary of the navy the newspaper boats are to form the defensive fleet of the naval display off Long Island. These boats armed with the weapons of the pen

and typewriter are to contest against the brain of the American navy. If the naval boats can succeed in eluding the vigilance of the newspaper representatives they win, if not they lose.

The Pennsylvania national guard are getting their share of warfare of the meanest kind. "The troops in the mining regions are subjected to ambuscades from striking miners who shoot and stab in the dark and then like Uncle Sam's Indians come and smile during the day time at their victims of past hours.

Local coal dealers are charging high prices for coal these days and making the payment of cash a necessity with the order. The prospect of a change in the methods of this local coal trust is not probable in the next few days if the present strike continues.

A Milwaukee actor's dog left him because he tried to teach the animal to drink beer. The animal was a wise one and evidently thought his master cheap to offer him beer when other drinks were to be had.

PRESS COMMENT

Phillips Bee: LaFollette was nominated by such a majority as shows him to be the choice, he is our man, he is our candidate, and we are in the fight for his election, no matter who may be put up in opposition to him. We expect him to be elected. We are equally in favor of retaining him. In so far as relates to local candidates it may have been legitimate for the convention to ask that all candidates be pledged to the minutes of the platform. We believe that the effort to extend this to the United States senators, especially those of established reputation for ability, influence and discretion, who are men who take no part in local discussions or contest, but confine themselves to the high duties of their station, was a mistake. Such a man is Spooner. He has not by word or act identified himself with any faction, but has been true and notably efficient in the high trust committed to him. We believe him worthy of and entitled to reelection.

Milwaukee Daily News: The solicitude of "Uncle Ike's" chain of newspapers lest Spooner be sacrificed by his friends discloses the philanthropic nature of Uncle Isaac's political activity. Not only has he spent his money freely and raked his brain editorially to promote tax reform and purer politics, but he is now fearful that the senatorship may be withheld from Spooner and manifests a desire to save him from the machinations of his short-sighted supporters. And yet their are amateur politicians that think that "Uncle Ike" is lacking in his qualifications of statesmanship.

Eau Claire Leader Wisconsin has another article to her long list of productions. Prairie du Chien has just made a second shipment of 300 tons of pearl button shells to Germany. These shells are found in the bed of the Mississippi and other streams. They make better buttons than the much vaunted East India article. The only pity is that the raw material is not manufactured here instead of being sent abroad.

St. Paul Pioneer Press: A nine-year-old boy in New York is being sued for \$50,000 damages by a former governess who claims that he knocked her down, jumped on her and kicked her so hard as to produce permanent injuries. If she gets a jury whose heart is still young enough to remember their youthful inclinations which only want of weight and muscle kept them from carrying into effect, the ex-governess will not get much out of the suit.

San Francisco Call: The great movement that is destined to abolish

the bill board nuisance in our cities has not been sweeping the country with the force that might have been expected of its merits, but still it is doing something. It is said to be making progress in Buffalo.

Wausau Pilot: The Democrats of Marathon county should make no mistake in their selection of candidates for the county this fall. Those in the past who have only been democrats when they were placed on the ticket, and at all other times helped out the Republicans ought to be taught a lesson by leaving them severely alone. They are weak, very weak.

New York Mail and Express: The way in which the democrats, with one accord, deny each other's Democracy suggests the story of the Scotch sect which dwindled down, by repeating schisms, to an old man and his wife. "And now," said a curious outsider to the old lady, "I suppose that you think you and your husband are the only people going to be saved?" And she answered sadly, "Ah, I have no doubts of John!"

Oshkosh Northwestern: It is evident that Dr. Wilder of The Madison Journal is still enjoying a period of self-communion and introspection to discover whether he is enough of a christian to turn the other cheek. He says: "The State Journal will nail the state ticket to the masthead in due time. Before we do this, however, we hope to make it reasonably clear that no one can rub mud into us without at least raising the temperature of the victim."

Milwaukee Evening Wisconsin: The most serious mistake that Tracy made was in killing himself after all that has occurred. The emphasis is on the "after." If he was going to kill himself why didn't he do it at the outset—or let some one else have a crack at him. Tracy, took a great deal of unnecessary trouble to disturb the congregation as he went out.

Milwaukee Evening Wisconsin: Should King Edward come across the Atlantic with a fast yacht, to race for the American cup, the yachtsmen of this country will show him how happy they can make a man, while they are really disappointing him.

La Crosse Chronicle: If Editor Wilder really wishes us to believe his claim that he is the only really independent editor in the state, why don't he write one of his characteristic sketches of Uncle Hod Taylor?

Atlanta Constitution: Anyhow, Theodore Roosevelt is yet to be accused of dallying with the ping-pong insanity.

Nashville American: The report that Roosevelt drinks a bucket of hot blood as an appetizer every morning is probably untrue.

The cases of F. A. Taylor vs. D. D. Williams and of F. A. Taylor vs. S. P. Billings, garnishee of D. D. Williams were called Friday morning before Justice Earle and adjourned for two weeks.

COURT ENJOINS WIFE'S ACTIONS

PECULIAR INJUNCTION SERVED
BY A JEALOUS HUSBAND.

PARTIES IN MILTON JUNCTION

John Gallup Gets Legal Order Restraining Thomas Bickel from Speaking to His Wife.

Summary measures to restrain Thomas Bickel of Milton Junction from interfering with Mrs. Louie Gallup, were taken by her husband on Saturday and an injunction restraining him from speaking to her or writing to her, either directly or indirectly, or doing anything tending or intended to alienate her affections from her husband, was issued by Court Commissioner Edwin Carpenter on the petition of her husband, John B. Gallup.

This is in all probability the first time in the annals of legal practice in Wisconsin that an injunction has been asked in a case of this character. The husband was prompted to ask for relief of this character on account of the defendant, Thomas E. Bickel, being insolvent and no pecuniary damages could be obtained.

Reside in Milton Junction.
The parties to the action all reside in Milton Junction. Gallup is a carpenter by trade and is a hard working man. The complaint filed in the circuit court alleges that Gallup's wife, Louie Gallup, is considerably younger than he is, she being 26 and he 37. Gallup and his wife were married September 15, 1891 and have four children, Bessie, Libbie, Fred and Julia, aged 6, 7, 9 and 11 years. Up to the winter of 1901 and 1902 their home life had always been happy and contented.

A Divorced Man.

About this time Bickel, who on December 6, 1901 secured a divorce from his wife on the grounds of desertion, appeared on the scene. He was the father of three children, Edna L., aged 17; Clarence O., aged 12, and Hazel, aged 7. He was a carpenter and went to work for Gallup. Shortly after Bickel went to work for Gallup, he, Gallup, was taken sick and was ill for several weeks. During his sickness Bickel visited him quite often and became acquainted with his wife.

Made Advances.

He made some advances to Mrs. Gallup and she seemed inclined to accept them. Several times while Gallup was away for a day or two doing carpenter work, Bickel and Mrs. Gallup met clandestinely and afterward used Bickel's son Claire for a messenger. At another time, about June 17 he went to Northern Wisconsin and remained until July 26. On his return home he found out that the intimacy between his wife and Bickel had increased and that during his absence they had made several trips out of town, one of them being to Fort Atkinson, where they remained several days.

Wife Is Cold.

After his return from the north his wife told him she did not care for him and wished to leave him. On August 2 he came to Janesville and told his wife he intended to stay a day or two. He returned to Milton Junction the same noon and found his wife not at home. He later found her at his mother-in-law's in a room with Bickel.

Plan Injunction.

When he found that matters had progressed so far and that something had to be done or his home would be ruined he came to Janesville and consulted with J. J. Cunningham in regard to what course to pursue. Mr. Cunningham went over the facts in the case with him and as Gallup was anxious to do something that would not break up his home hit upon the plan of asking for an injunction.

Facts Set Forth.

The petition set forth the facts that the defendant exercised influence over his wife and had partly alienated her affections and if matters were allowed to continue the happiness of his home, wife and children would be completely destroyed. The petition also stated that the defendant, Thomas E. Bickel, was insolvent and there was no redress for the injury in a pecuniary way.

Issued by Carpenter.

Judge H. F. Dunwiddie, being out of the city the petition was presented to Court Commissioner Edwin F. Carpenter, who after reviewing the facts, issued an injunction: "That the said defendant, his agents, or servants and employees, be and hereby are restrained and enjoined from meeting Louie Gallup at her home in Milton Junction, or any other place in Wisconsin, or by communicating with her by writing or by signs or doing anything to interfere with the marital relations existing between the plaintiff and said Louie Gallup. This injunction and restraining order to be in force during the pendency of this action or until further order of the court in these premises."

Agrees to Pay Damages.

Gallup, on his part, agrees to pay to the plaintiff \$250 damages. If the injunction is wrongfully issued.

Is Injunction Valid?

The question of the sufficiency of the injunction will probably come up before Judge Dunwiddie and until that time it will be well for Bickel to keep away from Mrs. Gallup.

TEAMSTER STRIKE IS NOW OVER

DRIVERS, CONTRACTORS AND CITY OFFICIALS HAVE CONFERENCE.

SETTLE ALL THE QUESTIONS

Fifteen Teams Employed Today, and Work Will Now Be Pushed to Completion.

Through the arbitration of some of the city officials the strike situation between the teamsters employed by Blake Bros. and the contractors, Messrs. Blake, has been settled and this morning the entire force of nine union teams with three additional ones are hard working to complete the Milton avenue macadamizing work.

The decision that ended the trouble was reached late Saturday night and was brought about by a board of arbitration consisting of the members of the teamsters' union, city officials and the two members of the contracting firm. While it was evident that Mr. Blake would be ready to resume work this morning with teams brought from out of the city, many of the city officials thought that neither the teamsters nor the contractors fully understood each other and a meeting was called to bring them together to discuss the question.

Authorities Realized Mistake.

Although it was evident that the work would go on with a full force this morning if Blake Brothers were left to their own resources, members of the city council saw that it would manifestly not be the best course for the city, and they saw too that a number of teamsters would be left without a means of employment for some time to come. John Blake was in the city from Madison on Saturday and he was consulted in regard to the matter. It was impossible for him to remain in Janesville, but as a result of the talk which J. B. McLean had with him, a plan of arbitration was agreed upon.

George Palmer, as president of the teamsters' union was asked to choose two men who together with himself should confer with Mr. McLean and Edward Blake. The five met Saturday afternoon and a settlement was effected which probably would have been brought about several days before if the parties who had authority had come together to discuss the situation.

Came To Agreement.

As a result of the conference the union agreed to furnish to the contractors all the teams that they should require, all of them fully competent to do the work asked of them. A uniform rate of \$3.75 for hauling stone and \$3.50 for grading was to be paid for ten hours' work a day. A proviso was also added that if the teams should reach a certain point at a certain time they should haul one more load.

Edward Blake, for Blake Brothers, agreed that he would hire only union teams, as long as the quality of the teams furnished him was wholly satisfactory, after which he was free to employ any teams that he wished.

Loss To All Parties.

One of the city officials said, in speaking of the matter, "It is a great pity that the right persons could not have come together several days ago to arrange this matter. The contractors have been kept almost idle at that point of the work where they could least afford it, the union teamsters have been kept out of five days' pay, and the city crusher has lost several days."

Twelve Teams.

There are now twelve teams on the stone hauling and three on the grading, all of them union teams. One of the drivers has just joined the union and had been working during the strike as a non-union man.

Edward Blake has been experiencing a certain amount of difficulty in securing sufficient men for his contracts in Madison and each day he has been sending some men from this city to the capital and would send more if he could find them.

CASES THAT WERE UP IN THE COURT

Drunk Goes to Jail, and Incurable Is Given Time to Reform.

Louis O'Rourke, better known as "Biddy" was before Judge Elfield this morning on the old charge of being drunk and disorderly. He pleaded guilty and was given 5 days and \$5 and costs, in all \$6.20 or ten additional days. Unless some of his friends manage to dig up \$6.20 Biddy will enjoy the carnival week at the Hotel Maltress.

Thomas Griffin.

The case of Thomas Griffin, an incorrigible, was on plea of his parents adjourned for two months and he will be given a chance to reform. Hugh Waggoner, the other boy, who was out on parole from the industrial school will be sent back.

Circus Man Fined.

Saturday afternoon, C. M. Hibbard, better known as "Reddy," the boss canvasser with Gentry Bros. show, was brought before the judge on a charge of assault and battery preferred by Otto Waggoner, one of the men connected with the show. He pleaded guilty and was fined \$5 and costs, in all \$6.20, which he paid.

Loani Band Meeting:

Members and friends of the Loani band of the Congregational church will spend tomorrow afternoon and evening with Miss Ludlow at her home, 208 South Main street. Letters from absent members will be read and a picnic supper will be served on the lawn at 6 o'clock. Each member is requested to furnish one article for supper and her own dishes.

Children's Meeting:

The children of Mary of St. Mary's church are requested to meet at Miss Morrissey's store this evening. This is of special importance and every member should be present.

Racing and Games Promise Good Events for the Spectators.

The picnic and races on Wednesday are sure to prove a grand success, as the horses already here and on the way assure racing of the highest order. Aunt Laura, 2:16, that is entered in the free-for-all, arrived today and "Fremont 1," that won from "Nicholas J." the fastest heat at Edgerton and "Ira S." will be here in the morning. Conway Bros. with "Pearl C." winner at Edgerton, and "Red Rover" with trotting record of 2:24 1-2 will be here today. There will be four races, everyone of which will prove intensely interesting. The free-for-all will be mile heats, 3 in 5, and it is a sure thing that faster time will be made than at any race over the Janesville track within the past five years.

The track was never in better shape for fast time than it is today. Other features will be introduced to add to the pleasure and enjoyment of all that favor the church society with their patronage.

CLAIMS BOEHM WAS TOO BLAME

P. M. Ide Tells His Version of Last Thursday's Trouble.

P. M. Ide of Afton, who had trouble with Charles Boehm on the Monterey bridge last Thursday says that the published accounts of the encounter were unfair to him. His side of the story is that Boehm was the aggressive party and that he was compelled to strike Boehm in self defense. Furthermore, he claims that he struck Boehm with a whip and not with a pitchfork, although he admits that he threatened to use the fork and tried to get hold of it, but failed.

Mr. Ide says that reputable witnesses will testify to the truth of his statements and that he is perfectly willing to meet Mr. Boehm in court and prove it.

ASK ARBITRATION FOR COAL STRIKE

TO CALL ON QUAY AND PENROSE

People's Alliance Committee Proposes to Have Them Bring Pressure on the Operators to Settle the Trouble in the Anthracite Region.

Wilkesbarre, Pa., Aug. 11.—Ex-Governor Pattison may in company with Senators Quay and Penrose be asked to do what he can to have the coal strike settled by arbitration. It is being proposed by a number of people here that either the people's alliance committee, which is to see Quay and Penrose, see Pattison also, or that a separate committee wait upon him. In just what manner it is expected he will be able to influence the operators to submit to arbitration or compel arbitration is not stated. Many look upon it merely as a political move by which it will place Pattison in a position to gain a number of union votes for governor by bestirring himself in the cause.

To See Senators.
The people's alliance has not yet decided to include Pattison with the two senators and may not. The committee appointed is now collecting a number of representative business men—ten or twelve being desired—who will act as the committee to see the senators and place before them a petition, as well as explain personally the conditions in the region, the loss to business and the political dangers of the situation.

It is not expected after the committee has done all it can to continue the alliance in existence, as it was formed only for the purpose of securing arbitration.

Men Not to Be Had.

President Mitchell left for Scranton and when asked if his visit had any significance said he was merely going to see some friends. He was amused by the statements that the operators are to make a concerted effort to resume operations this week and said that, while they might make the effort, and there was nothing to prevent them doing so, it was impossible that they could succeed, as they needed men to work and the men were not to be had.

"The strikers are not going back," he said, "and they cannot get enough bosses, so what are they to do? They are merely making spasmodic efforts to weaken the standing of strikers, and they are not succeeding."

Miners' Ranks Hold Firm.

The strikers themselves say to all inquiries in the different parts of this valley that there are no desertions from their ranks. . . that there is no doubt that the men are now more determined than at any time since the strike began. Business men and physicians who come in close touch with them corroborate this statement and say they will be even firmer when the strike fund grows larger, as it is expected to do before the end of this week.

The estimated losses and the cost of the strike to date, the ending of the thirteenth week, are placed at \$72,600,000.

GIVES PALACE TO THE NATION

King Edward Presents Osborne House to British Subjects.

London, Aug. 11.—Osborne House, the favorite palace of the late Queen Victoria and the most enchanting retreat on the sunny Isle of Wight, was presented by King Edward to the British nation in memory of his coronation.

It was reported recently that the king intended to make this gift to his subjects and that it should be transformed into a sanitarium. In a message to his people, addressed to Premier Balfour, the king expresses the hope that it be transformed into a convalescent home for officers of the navy and army whose health had suffered during service.

For half a century Osborne House was the most cherished of the late queen's residences. It was built in 1840 after plans made especially for the prince consort.

Chinese Documents.

Many ancient documents have been discovered in the exploration of the sand covered towns of Chinese Turkestan. They consist of writings on wooden tablets, and are sealed and tied when found, the sand having preserved them in excellent condition. Even the ink with which they were written is still black and easily read. It is believed that these documents will throw much light on the life and customs of the people that formerly lived in this desert. The script in which they are written is of a kind still known in India.

INSANE FARMER

KILLS HIS WIFE

WOULD NOT DISGRACE SPOUSE

So He Took His Helpmeet's Life. Wrote a Touching Letter to His Son, and Then Hanged Himself in the Barn.

Ithaca, Mich., Aug. 11.—Rather than permit her to suffer the opprobrium of being the widow of a man who committed suicide to escape insanity, S. Sower murdered his wife with an ax as she lay asleep. Afterward, it is supposed, he calmly sat down and wrote a letter to his son Ellis, described his mental condition, then went to his barn and hanged himself to a rafter. His body was found swinging above the heads of his horses.

Grieves for Daughter.

Two weeks ago Sower visited a physician and explained that he was sick. The doctor told him that he was slowly but surely becoming insane. In time he must certainly become an inmate of an asylum.

Would Spare Wife Disgrace.

Sower pondered over the physician's words and decided that he would kill himself. But he shuddered at the disgrace the act might bring on his wife. So, according to his letter, he decided to kill her, being firm in the belief that divine law would not hold him accountable for the taking of two lives.

Following is the text of the letter Sower left to his son Ellis:

Insanity or Suicide.

Dear Ellis: This could not be any other way. I know weeks ago that it must be insanity or suicide for me and I decided that insanity would be worse for all of us than suicide. But I could not possibly bring myself to feel that it would be otherwise than cowardly to leave mamma to the awful sufferings and death that either insanity or suicide would mean for her. So I decided it would be best for all and especially for her to take her with me. What can I say to you that will in any way help you to bear this awful blow? Nothing.

No Fear for Future.

No one is to blame for this. My wife has been an affectionate, patient and self-sacrificing woman and my son a most dutiful boy. I could not explain so I would be understood what has led up to this, but Nannie's death hastened it and if I should write page upon page I would not be understood. I have no fear whatever for the future as I have done the very best I could with the light and strength I have had through life. No just God would punish me for what I could not help. Good-by all.

S. S. SOWER.

BOY SAYS HE WRECKED TRAIN

Put a Spike on the Track and Caused a Man's Death.

Omaha, Neb., Aug. 11.—Delbert Preston, a 15-year-old boy, has made a confession to the authorities of having caused the wreck of a passenger train on the Rock Island, near South Omaha, July 24, by which one man was killed and several others injured. According to his story he was spending an idle hour on the track and picked up an iron spike, which he inadvertently left lying on the rail with the head toward the coming passenger train.

ICE HANDLERS BACK AT WORK

Men on Strike at Twin Lakes Agree to Compromise.

Kenosha, Wis., Aug. 11.—Two hundred handlers in the employ of the Knickerbocker and Jefferson ice company at the house at Twin Lakes have returned to work. The conditions of the settlement have not been made public, but it is stated that a compromise was reached. All the union men will be taken back regardless of the part they took in the strike.

BLOWS OFF HIS FACE WITH GUN

Soldier Attempts Suicide at Fort and Lives, Though Wounded.

Leavenworth, Kan., Aug. 11.—Private Cross of company D, First battalion of engineers, placed the muzzle of a rifle under his chin and pulled the trigger at Fort Leavenworth. His whole face was blown off, but he is still alive. Cross was on sentry duty when he attempted suicide. He was demented. The surgeon says he cannot live.

St. Vitus's

Dance, or chorea, is one of the most pitiable afflictions humanity is called on to endure. That this disease can be cured, however, is proven by the fact that it has been cured by the use of Dr. Pierce's Favorite Prescription. The

tranquilizing effect upon the nerves exercised by this remarkable medicine is witnessed to by thousands who have found healing and strength in its use. It not only cures womanly diseases, but it promotes the health of the whole body. It is a nerve-feeding, strength-giving, sleep-inducing medicine. It makes weak women strong and sick women well.

"Favorite Prescription" contains no alcohol and is entirely free from opium, cocaine, and all other narcotics. It cannot disagree with the weakest or most delicate constitution.

"When our daughter Lizzie had St. Vitus's dance, I happened to get one of your small books and read it," writes Henry L. Miller, Esq., of 1016 North 7th St., Burlington, Iowa. "Among other things I found that Dr. Pierce's Favorite Prescription cured patients suffering from that trouble, so I went out and got a bottle. She was very bad at that time and could hardly talk. When I read about your medicine in that small book, I said to myself, with the help of God and that medicine we can cure our daughter. We did so. Four bottles of 'Favorite Prescription' cured her, and I did not have to take her to the doctor any more. She is well, thank God and the 'Favorite Prescription' for it."

Dr. Pierce's Pleasant Pellets cure biliousness.

BILL POSTING IS A NEW SCIENCE

P. L. MYERS' NOVEL SYSTEM

Big Boards 200 and 300 Feet Long
Have Been Built for the
Purpose.

Over ten thousand running feet of billboards will make up the equipment of P. L. Myers' bill posting system when he has completed the improvements and extensions upon which he has now begun work. The first manifestation in the city of these changes was given this morning when workmen began tearing down the bill boards at the corner of West Milwaukee and Academy streets. This board will be immediately rebuilt, two hundred feet in length, of matched lumber throughout, and the same change will be made in several other locations.

200 Feet Board
In Spring, Brook at the junction of Mevey boulevard and Jackson street a two hundred foot bill board has just been completed. Another extensive system of boards will be erected along the line of the Interurban where Mr. Myers has secured exclusive privileges to within a few miles of Beloit. Altogether over eighty locations will be provided with display boards when the contemplated additions have been made.

NEWS OF THE CITY IN BRIEF.

Marble Treads Here: The marble treads for the iron stairway in the city hall arrived today and will be put in place as soon as the balance of the iron work is all in place. The marble treads will add greatly to the appearance of the steps when they are in position.

Association Meeting: The annual meeting of the stockholders of the Rock County Building, Loan and Savings Association will be held at the office of the secretary on Tuesday evening, August 12, at 7:30 o'clock p. m. Business of importance will come before the meeting and a full attendance is requested.

Steam Roller Breaks Plate: The steam roller broke one of the heavy iron plates over the gutter at the intersection of West Milwaukee and Franklin streets this morning. The plates are heavy, enough for almost anything, but an 18-ton steam roller and that has no trouble in cracking them.

Accident To Horse: Ryan met with an accident with one of his horses yesterday afternoon. While having the horse exercised at the Fair Grounds by a boy named Casey, his front tendons gave out and he fell, and had to be shot by a veterinary surgeon, who claimed that his tendons were too weak to hold him up.

Family Has Unique Record.
The Wardwell family of Detroit comprises a mother and sixteen brothers and sisters, all resident in that city except a brother, who is in the Klondike, and a sister. The oldest is 75, the youngest 45 years old. There has never been a death among the brothers and sisters in the family.

Prisoner (a barber)—Yes, your honor. Your hair wants cutting.

Judge—Sodoes yours. Six months!

Old Proverb.

"Familiarity breeds contempt."

Ma's Opinion.

Little Willie—Say, ma, who invented the envelope?

Ma—I really don't know, my son, but I believe the first one was discovered in a married man's pocket addressed to his wife's mother.

Not an Objection.

The Proprietor—But we haven't enough work to keep another man busy.

The Applicant—Oh, I don't mind that. What I want is a steady job.

Location Everything.

Mickey—Mamie, will you share my lot?

Mamie—Dat depends whether the lot is on Fifth avenue or Mulberry Bend.—New York World.

FAREWELL PARTY UP THE RIVER

Fifty Gentlemen Friends Will Be the
Guests of L. L. Leffingwell Tomorrow—Honor Alex. Buchanan.

Alex Buchanan, who will soon set sail for Scotland, will be given a farewell party tomorrow up the river by L. L. Leffingwell. Fifty gentlemen friends will take part in the festivities which will consist of an elaborate banquet and a program of music and out-door games.

Capt. Buchholz's steamer has been chartered for the occasion and the function promises to be one long to be remembered.

Mr. Buchanan will set sail from Montreal for Glasgow, accompanied by his father and expects to make a visit of several weeks in Scotland and England.
